

COMMITMENT OF COMPANIES

EXPERT FORUM

in Vienna

October 3, 2018

The expert forum will be held by international experts from different European countries with long tradition in the treatment of municipal solid waste (MSW) incineration bottom ashes (IBA). Besides the everywhere profitable metal recovery, the utilisation of the mineral residues as secondary raw material underlies contrary legal and political frameworks in the different countries.

Experienced companies are invited to engage themselves in the forum as a sponsor.

COMPANIES AS SPONSORS FOR THE FORUM

Sponsoring companies can engage in the Expert Forum with a contribution of **4.500,00 EUR** plus VAT. The grant is used to further increase the quality of the event. The financial contribution entitles the sponsoring companies to the following services:

- two full-page advertisements in the book *Removal, Treatment and Utilisation of Waste Incineration Bottom Ash*, which is released at the congress, and in our online literature database,
- a free ticket for a member of the company,
- the company logo is displayed in the congress flyer, given that the confirmation is provided before the flyer goes to press,
- the company logo and a link to the company's homepage are displayed on the TK-Verlag-homepage, www.vivis.de,
- the company logo is printed on the writing pad, which is handed out to the participants,
- the company logo is displayed in the PowerPoint-presentations, which are shown during the breaks,
- information material of the sponsoring companies can be enclosed to the congress proceedings.
- price reduction of 1,000 EUR for an advertisement in the book *Waste Management*. The print version (about 180 pages) contains the articles of the expert forum on October 3, 2018 and will be published on the occasion of the IRRC and later as e-book. (You pay only 1,500 EUR instead of the regular price of 2,500 EUR plus VAT.)

COMPANIES AS ADVERTISERS

Advertisement in the book

Removal, Treatment and Utilisation of Waste Incineration Bottom Ash and in our online literature database

On the occasion of the Forum on October 3, 2018 the book

Removal, Treatment and Utilisation of Waste Incineration Bottom Ash
is published.

The book contains 8 articles, which are identical with the presentations at the Expert Forum.

The book will also be marketed after the congress. It is addressed to decision makers, managers and experts in the new EU member states and those countries that want to become active in these regions.

The hardcover and **four-colour printed book** will have a content of about 250 pages.

Online literature database: In addition, three month later all articles will be published in our online literature database at www.vivis.de for free downloads. The full-page **advertisements** will also be integrated with a **link to the homepage** of the advertising companies.

Offer and Services: A full page, four-colour or black-and-white advertisement (size: 15.5 cm x 23.5 cm, plus 3 mm cutting) will be priced at 2.000,00 EUR excl. VAT.

The advertisement will be placed in the book according to the wishes of the advertising company. Advertisers are also offered the opportunity to display their own leaflets during the congress.

Data format for the advertisement: A printable PDF document is required.

Deadline: The book will be published on October 1, 2018. In case of an affirmative decision from you, we require your confirmation and complete printing materials if possible by July 20, 2018.
